
President's Message

Dear Sponsors and Supporters of the CCDSBC,

It is with enormous pleasure for the CCDSBC board to welcome you to our 2007 Annual Gala. For 19 years, this annual event has become a tradition for us to celebrate the development and growth of our Society. More importantly, this event has become a major fundraiser for us. Funds raised at this event have made it possible for us to promote dental health education world-wide and to provide financial assistance to needy undergraduate dental students at UBC.

On behalf of the Board of Directors of the CCDSBC, we would like to express our most sincere gratitude to you for your support. We are especially thankful for all the corporate and individual sponsors for their generous contributions and donations. Like all other non-profit organizations, the work of the CCDSBC would not have been possible without the generous support of a lot of people. Your continued support will allow us to pursue our mission to contribute to our communities and the Canadian society-at-large.

This year's festivities are special as we are honouring Dr. Edwin Yen, who has served as the Dean of the UBC Faculty of Dentistry for the past 13 years. His leadership and vision has elevated the school to a new level of excellence with the opening of the new Nobel Biocare Oral Health Centre. We wish to pay tribute to Dr. Yen for all the hard work he has done for UBC. We also wish to welcome Dean Charles Shuler as the incoming Dean of the UBC Faculty of Dentistry. We look forward to working together with Dean Shuler in the years to come.

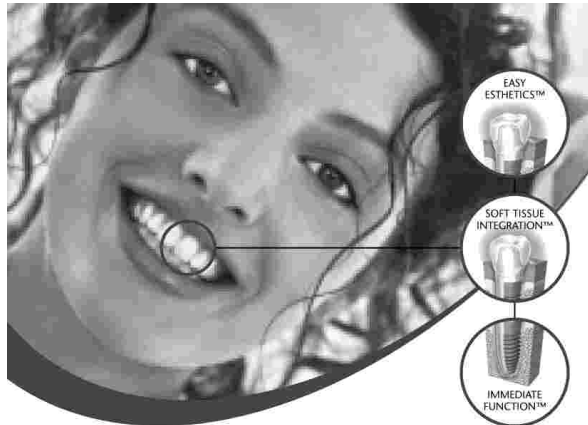

Your presence tonight has made this event possible; thank you for sharing the evening with us.

Mahalo!

Carter Ng

Dr. Carter Ng
CCDSBC President

As world leaders in innovative esthetic dental solutions, Nobel Biocare is the only company that offers you a total solution for every indication – from start to finish.

- Easy Esthetics™, Soft Tissue Integration™ and Immediate Function™ give all your patients Beautiful Teeth Now™
- Surgical planning with pin-point precision, based on CT Scans
- Flapless surgery with no healing time required prior to functioning
- Strong and long lasting, Procera® provides the beauty and translucence of natural teeth
- Our unique biomaterial TiUnite™ delivers faster bone formation than apposition alone

Find out more about the esthetic dentistry of the future. With Nobel Biocare, it can be yours today.

Congratulations to the CCDSBC

From the first day that I arrived in British Columbia it was apparent that the Chinese Canadian Dental Society was a role model for supportive groups from the profession. The CCDSBC committed itself to community education for oral public health projects. It fundraised for endowments to support research, outreach and public education. It represented an informed and educated position from its membership on key issues before Dentistry. It provided cost effective continuing education with a feature that only a Chinese society would appreciate: good food. Last but not least, it fostered a sense of community while embracing the diverse cultures that define our modern society.

Dental education has benefited from the role model of the CCDSBC. As the student population begins to reflect the multicultural face of BC, the ability to be sensitive with the needs of different cultures has become even more important than the latest dental technological change. The value of professional camaraderie and the strength of colleagues working together to better serve the public have been integral to the CCDSBC and to the profession.

My 13 years as dean has been guided by the hopes and aspirations of the CCDS. I wish the CCDSBC success in supporting Dentistry and oral health. I am deeply grateful for sharing this vision and their support with the University of British Columbia.

Edwin H. K. Yen, D.D.S., Dip. Ortho., Ph.D.
Professor and Dean Emeritus
The University of British Columbia

Gala Chair's Message

Aloha,

It is my pleasure to welcome you to the 19th Annual Chinese Canadian Dental Society of BC Gala Dinner. Our record crowd is indicative of the reputation that CCDSBC has built over the last two decades and to the drawing power of our special guest, Dr Edwin Yen.

We have planned a special evening with a Hawaiian theme. The mere mention of Hawaii conjures up a vision of serenity, beauty, and mystery. For such a small speck of land on Earth's surface, Hawaii has an enormous cultural heritage. From the décor and ambience, to the menu and entertainment we have tried to recreate the Aloha Spirit that Hawaii is so famous for.

Many of the souvenirs and table prizes were personally brought back from a recent trip to Maui, not surprisingly some of the items were made in China. Economics is indeed intertwined with globalization. Nevertheless, we wanted to transport you to that tropical paradise albeit for only a few hours.

I would like to thank all our Board Members for their support and hope my constant whipping has not left any psychological scars in their psyche. Of course an event of this caliber would not have been possible without the generous support from all our sponsors. We would like to especially thank the Hyatt Regency Hotel for being so accommodating to many of our requests and in coming up with such an original menu.

If you have been able to take away some pleasant memories and if we have stirred an urge in you to soon visit that little piece of paradise, called Hawaii, then we have achieved our goal. Enjoy the evening and until we meet again next year, "Under the Tuscan Sun"

Mahalo,

Anthony Li

Tonight's Wines

White: **Umani Ronchi "Villa Bianchi", Verdicchio dei Castelli di Jesi DOC, 2005, 12.5% ABV, Marche, Italy**

Wine Spectator Best Buy: "... Fruity white, with table grape, fresh orange and mineral character. Medium-bodied, with a fresh, mineral palate and finish."

Grape: 100% Verdicchio--one of the best known grapes native to the Marche region in the Central East coast of Italy.

Red: **Umani Ronchi, Serrano Rosso Conero DOC, 2004, 12.5% ABV, Marche, Italy**

This wine shows a ruby red color with purple reflections. It has an intense, spicy bouquet, with cherry nose and a dry, fruity taste with supple and harmonious texture.

Grape: 85% Montepulciano, 15% Sangiovese. The grapes used to make this wine benefit from a special microclimate and soil, producing exceptional fruit.

Wines imported by Stile Enterprises Ltd.; recommended by Ninety-Plus Vintages

Hospital Dentistry Program at Vancouver General Hospital congratulates Dr. Yen

The provincial Hospital Dentistry Program at VGH congratulates Dr. Yen on his leadership and contribution to B.C.'s dental community.

The Department of Hospital Dentistry at Vancouver General Hospital (VGH) is one of the leading dentistry programs in the country, and Dr. Yen's support and vision as the former Dean of Dentistry helped it get to where it is today. "A shared vision between the Department and UBC has strengthened the goals of service education and research within

Hospital Dentistry. Dr. Yen has been a tremendous asset in advancing this vision and supporting the Department in both residency training and community outreach. In the end, this promotes excellent patient outcomes and quality care," said Dr. Chris Zed, Head of the Department of Dentistry.

Those working in Hospital Dentistry provide dental care for a variety of medically compromised patients; adults with dental or oral trauma, or extreme disorders within the mouth. The Hospital Dentistry Department is where you – B.C.'s dentists, along with doctors and oral surgeons – can refer patients whose conditions are too complex to treat in a normal dental office setting.

Hospital Dentistry offers centralized, convenient and accessible service for patients. The Department sees referrals from across British Columbia

and is the only full-service hospital dentistry facility in the province providing adult care. Over the past 10 years, the services for Hospital Dentistry in the Lower Mainland have been aligned and are now at VGH, the quaternary care centre for this specialty area, for the entire province. Its recently consolidated outpatient services are now in the Gordon and Leslie Diamond Health Care Centre on Oak Street and 12th Avenue in Vancouver.

The Department is focused on providing care to patients with complex needs and education for students, residents, clinicians and administrative staff; their role within a teaching hospital is taken seriously.

Types of procedures performed on medically complex patients encompass all dental procedures including restorations, dental surgery (IV sedation, extractions, gum disease, trauma cases), orthodontics, facial pain, biopsies, cancer screening, dentures, root canal treatment, and crown and bridge fabrication. A strong focus for the Department has been to work closely with the community, providing care for underserved, under-accessed and underprivileged populations.

Located on the site of VGH, Hospital Dentistry is working in partnership with the VGH & UBC Hospital Foundation on fundraising initiatives for world-class care for people in B.C.

You + 3M ESPE = *Standards that inspire confidence*

It's one thing to develop a product with promise. It's yet another to develop a product that lives up to its promise in your world. At 3M ESPE, everyone works to make sure performance matches promise, from our sales representatives to our manufacturing teams to our scientists. We apply information from accepted university - and dentist-originated studies. We conduct our own lab and bench studies and controlled clinical use evaluations. Just as important, we regularly seek reactions to new ideas from hundreds of industry opinion leaders at national and international conferences. Our standards are high. Just like someone else we know. To learn more about what we do to help you feel confident about 3M ESPE products, visit www.3MESPE.com/CA or call our **Customer Care Centre** at **1-888-363-3685**.

Mission

The Chinese Canadian Dental Society of B.C. was founded in 1988.

Our goals are:

- a) To encourage its members to contribute to their community and the Canadian society-at-large;*
- b) To foster and develop professionalism, fellowship, and the welfare among all dental personnel;*
- c) To undertake educational, cultural, athletic and recreational programs;*
- d) To promote and establish communication and cooperation with other organizations;*
- e) To fund scholarships and fellowships for dental education.*
