Outline: *Advancements in technology and materials have changed the world of prosthodontics. Digital workflows allow for enhanced communication between clinicians, technicians, and patients – in addition to improved treatment outcomes. This presentation will give an overview of innovations and techniques that can be implemented to create a fully integrated digital workflow and achieve more predictable, efficient, and durable treatment outcomes.*

Learning Points: ✓ *Understanding* how to utilize a digital workflow from treatment planning to final treatment outcomes
✓ *Overview on the applications of IOS, Virtual smile design, CBCT, and 3D Printing*
✓ *Introducing* innovative ways to combine steps in your workflows utilizing technology and modern materials

The Speaker: *Dr. Faraj Edher, DDS, MSc, Dip Pros, FRCD(C), is a Specialist in Prosthodontics and the Founder of the BC Dental Study Club. He is the Director of the Digital Dentistry Institute, a global educational organization that conducts comprehensive training programs in digital dentistry and implant dentistry. He regularly gives presentations, seminars, and workshops, both locally and globally, focusing on digital dentistry, implant dentistry, treatment planning, and aesthetic rehabilitations. In addition to practicing full time in British Columbia - Canada, Dr. Edher is a Clinical Assistant Professor and guest lecturer at the University of British Columbia and has numerous publications in areas such as dental implants and digital dentistry.*
